

Fellow Precinct Committeeperson,

On February 27, we have the chance to vote for the next chair and the future direction of the Democratic Party of DuPage County. My name is **Cynthia Borbas** and I'm running for chair of the Democratic Party of DuPage.

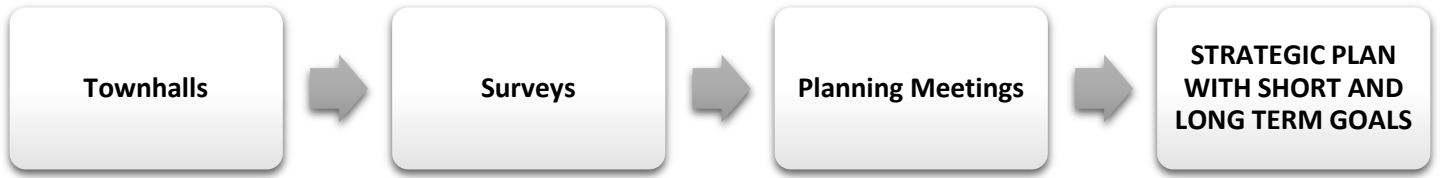

In order to build on the progress made in DuPage by Democrats, Democratic Organizations, Grassroots Groups, Unions, Candidates and Elected Officials, it's time for the Democratic Party of DuPage County to take that next step forward. Our organization needs to be empowered, unified and active to ensure the people's work is done. I have the experience, results and connections to implement that shared vision.

Moving Forward

Strategic Plan

We all know that DPDC needs a strategic plan to be successful. Day 1 we will start work on building our strategic plan. This will include townhalls, surveys and planning meetings with all stakeholders. By 5/1, the goal is to have the entire new structure in place and already be working on short-term and long-term goals. In addition, while we work on the Strategic Plan, we will still be working on the 2019 Election and the Gala. There’s a lot to do, and we will get it done together.

Wayne Township Democratic Party Notes

- I helped run the GOTV efforts in Wayne Township from 2014-2016. I have owned and run the GOTV efforts of the Township since 2017. Every year we built on the previous cycle, and we are now an efficient, active organization that is able to cover our entire Township multiple times for each of our democratic candidates each election cycle.
- In addition to Officer and GOTV activities, I’ve worked since 2016 to recruit new members and PCs into our organization. In the 2018 cycle, we had three times as many PCs and four times as many volunteers than we did in the 2016 cycle, and we’ve already started our 2019 GOTV cycle.
- I have had the privilege of working with a number of grassroots groups over the last couple of years, which has been mutually beneficial as we continue the fight for Economic Justice, Civil Rights and Our Environment.
